Connecting to the Campus Wi-Fi for Android Phones

Service Desk Tutorial

Purpose:

This tutorial will assist Faculty, Staff, and Students in connecting an Android device to the GovState wireless network.

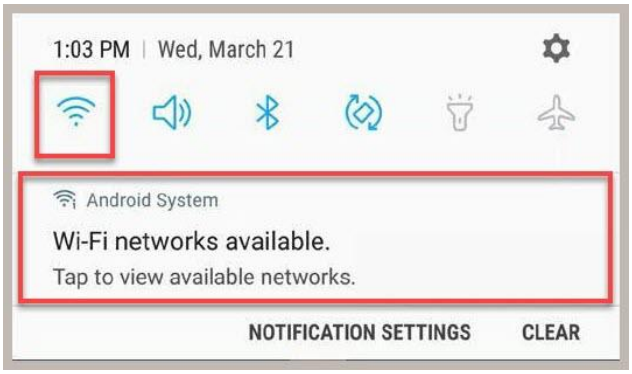

Step 1

Swipe down from the top of the phone to access Wi-Fi settings.

Step 2

Make sure your Wi-Fi icon is on. Then tap the designated area to view available networks.

Step 3

Tap the available network **GovState-Secure**.

Step 4

To connect to the Wi-Fi, click **Select Certificate (A)** from the CA certificate, then select **Don't validate (B).**

Note: *If you have difficulty connecting, select* ***Use system certificates*** *and enter* ***govst.edu*** *in the domain field.*

Step 5

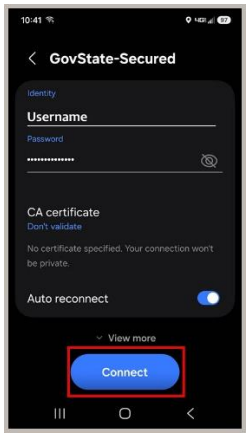

Enter your **GovState Username (A)** in the Identity field and enter your **GovState Password (B)** in the password field.

Note: *Your GovState Username is your email address without the @govst.edu suffix. Ex. Jjaguar@govst.edu username would be Jjaguar.*

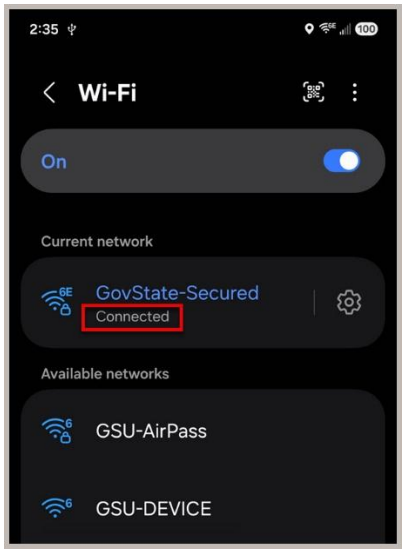

Step 6

Click **Connect** to connect to the network.

Step 7

In the Current Network section, your Wi-Fi network will show as connected.

If you have any questions, please contact the ITS Service (Help) Desk.
