Purpose:

This tutorial will help Faculty, Staff, and Students connect to GovState Wi-Fi on their Mac computers using their GovState credentials.

Note: *To ensure faster connectivity, please verify you are connected to the GovState-Secured wireless network.*

Step 1

Click the **Wireless icon** in the Menu bar.

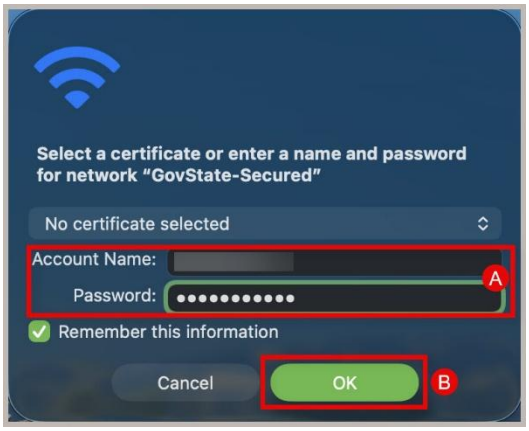

Step 2

The wireless menu will open. If it is off, be sure to turn the wireless on by using the toggle switch. Click **GovState-secured**.

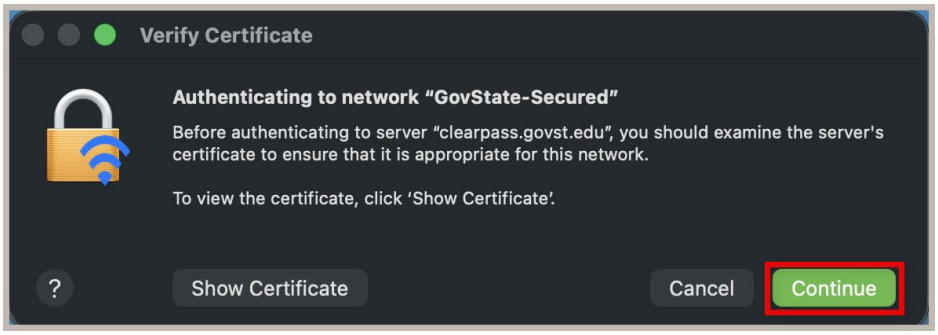

Step 3

When you select your network, a pop-up will appear. Enter your **GovState Username and GovState Password (A)** in the respective fields and click **OK (B).**

Step 4

A pop-up will appear on screen, asking you to verify a certificate. Click **Continue** to finish connecting to the network.

Step 5

The **Wireless icon (A)** in the Menu bar will show a full wireless connection. Clicking the **Wirless icon (A)** will open the wireless menu. The GovState-secured network will display a **green wireless icon (B)** to indicate a successful connection.

If you have any questions, please contact the ITS Service (Help) Desk.
