Purpose

This tutorial will help Faculty, Staff, and Students connect a Windows device to the GovState wireless network.

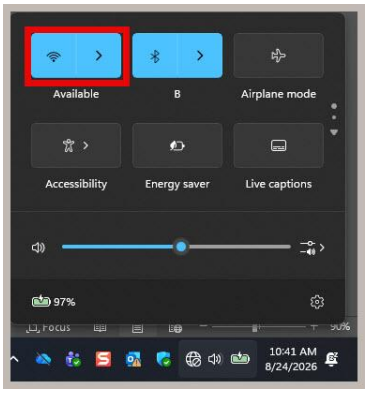

Step 1

Select the **internet icon** in the lower-right corner of the laptop or computer screen.

Step 2

On the open Settings menu, click on the **Wireless icon**.

Step 3

Select the **GovState-Secured** wireless network.

Step 4

Click **Connect** to connect to the GovState-Secured network.

Step 5

Enter your **GovState network account username and password (A)**, then click **OK (B)**.

Note: *Your GovState Network account username is your email address without the @govst.edu on the end. For example, if your email is Jjaguar@govst.edu, your account username would be jjaguar.*

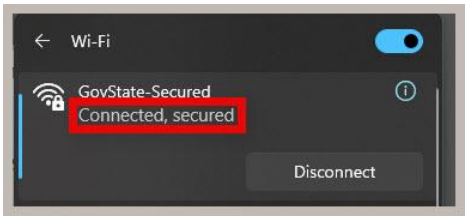

Step 6

A "Continue connecting?" pop-up will appear. Click **Connect** to continue to connect to the wireless network.

Step 7

When connected, it will display **Connected, secured** on the wireless network under GovState-Secured.

If you have any questions, please contact the ITS Service (Help) Desk.

Contact ITS Service (Help) Desk:
